Experience

Mark is a Director of Lacey Hickie & Caley with over 20 years experience. He has extensive knowledge of both commercial and public sectors including offices, retail, leisure and housing, with a particular specialism in further and higher education buildings. He has a personal interest in the 'front end' strategic and concept planning and design stages.

Recent Projects

The Energy Centre - South Devon College

The project will provide a new 'state of the art' teaching facility which will firmly establish the College as a leading training provider at the very cutting edge of sustainable building technology and micro-generation training within the South West Region. The £4.4m Energy Centre building has been designed to be able to demonstrate exemplar sustainable credentials and environmental awareness in its design and construction, which will impress and inform the teaching process within, and is designed to achieve a BREEAM score of 'Excellent'. The Energy Centre comprises of a large construction hall, display / conferencing area, classroom space, innovation suite, incubation facilities, cafe along with other supporting facilities. The project also incorporates a CfSH Code 5 test house on site for monitoring and research use.

South Devon College, Vantage Point, Paignton

Mark undertook masterplanning to consolidate a scattered campus into one site and helped the College achieve funding. Phase I refurbished existing buildings and incorporated new build elements to create a vibrant campus. The Phase II expansion sits within and enhances the existing campus. Embodying sustainable practices, Phase 2 includes the award winning University Centre which has achieved BREEAM Excellent.

Plymouth College of Art and Design

Variety of refurbishment and new build projects including the recent transformation of the Tavistock Place tower which included recladding to improve environmental performance, new public realm, gallery space and ground floor extensions.

Rudolf Steiner School, South Devon

Eco friendly teaching accommodation following the spirit of the anthroposophical movement. Includes new Eurythmy Hall and Early Years accommodation.

Gun Wharf Housing Scheme, Plymouth

CABE Gold Award winning housing scheme. '...an exemplar scheme, not just for the region but nationally...'. Housing Corporation. Comprising 99 dwellings, Gun Wharf represents high quality urban renewal.

Somerset College of Art and Technology

Regeneration of the existing campus with new masterplan and build across several Phases.

Tamar Science Park

The creation of a total business environment within landscaped surroundings, the park was designed to become pivotal to the South West economy, providing an inspirational campus atmosphere..
