

Colin Pill

Associate Director

Waterman Energy, Environment & Design Ltd

Profile

Colin Pill is a Chartered Landscape Architect with over 20 years experience working within multidisciplinary environmental practices where he has been responsible for managing the landscape teams. He has considerable experience in strategic landscape planning as well as landscape and townscape assessments for EIA, and masterplan support services such as public realm strategies, sustainable drainage, green infrastructure and park strategies. Colin is skilled at project management for large complicated projects involving multidisciplinary teams.

Qualifications: BA (HONS) DIP (HONS) LA CMLI

Key Skills

- Landscape/townscape/seascape and visual impact assessment
- Landscape masterplanning of urban extensions and business parks
- Green Infrastructure and sustainable drainage
- Public realm appraisal, strategies and design
- Renewable energy – including wind turbines and large-scale PV
- Process engineering and re-engineering for the public sector

Selected Project Experience:

Project	Details
The Cornwall Spa and Leisure Resort	Redevelopment of a historic estate into a 5 star hotel, spa and second homes/holiday homes set with woodland context. Project Management, EIA, LVIA, masterplanning, ecological design for bat house and detail landscape design. Environmental Management plan for the construction works.
Arsenal Emirates Stadium	EIA, Townscape and Visual Impact Assessment for the redevelopment of Highbury Stadium and the new Emirates Stadium at Ashburton Grove
Castle Court, Osprey Quay Portland Bill	EIA, masterplanning, public realm strategy, design and project management for this coastal project. EIA and Townscape and Visual Impact Assessment (including night-time assessment) within historic setting of Portland Castle for Olympic related development which included the Royal Yacht Association Headquarters. Work included seascape assessment and assessment of Portland Castle from the sea within and around Portland Harbour.
Wind Turbine Portfolio	Working exclusively for a private energy developer to gain planning permissions for medium scale wind turbines across the south west of England, many within coastal landscapes of Cornwall. Work included LVIA's, cumulative assessment photomontages, written representations, proofs of evidence and attendance at hearings.
Defence Estates REES Assessments and Training	Good practice guidance for the MOD relating to landscape and visual issues, including review of planning policy, good practice, and producing a methodology for the assessment of MOD bases and establishments to be used nationally for the development, management and disposal of assets. Training was provided as part of the project for professional DE staff.
