

## Richard White

BArch RIBA **Architect**

Richard White joined Mitchell Architects in 2000, having resided in South Africa for 20 years where he ran his own practice and gained a wide range of experience in Public Buildings, Health [hospital in-house architect], industrial and housing [from sub economic to individual houses]

He is currently the out-going Chair of the RIBA South West.

As a Director of Mitchell Architects he has been responsible for a variety of building design types ranging from Health, Education, Industrial, Housing and Listed Buildings.

The Health aspect of his work includes both Hospital design and Extra Care Housing.
